World Mental Health Day – 10th October

World Mental Health Day is celebrated annually on the 10th October. The theme for 2023, set by the World Foundation of Mental Health, is 'Mental health is a universal human right'. World Mental Health Day is about raising awareness of mental health and driving positive change for everyone's mental health. It's also a chance to talk about mental health, how we need to look after it, and how important it is to get help if you are struggling.

Please see the link attached for further information, advice and support.
